Devon Cheng

San Diego, CA | (240) 918-9503 | vic159@ucsd.edu | LinkedIn | Portfolio | GitHub

EDUCATION

University of California San Diego - La Jolla, CA *Expected Graduation: Fall 2027*
B.S. in Cognitive Science, Spec. Machine Learning and Neural Computation | Marketing Minor

EXPERIENCE

Docusign **San Francisco, CA**
Applications Product Management Intern *Jun 2026 - Sept 2026*
• Proposed and led Snowflake-to-Slack seller MVP, delivering an MCP Slackbot integration and a standalone Slack agent with per-user permissions and tool controls in **eight weeks**.
• Translated **20 user interviews** and two connector evaluations into a roadmap for scheduled reporting and in-depth queries; validated requirements with **eight teams**, including Security, IAM, and Cloud Applications.
• Selected **direct Snowflake queries** over Cortex API and MCP, preserving AI integration while avoiding third-party legal requirements that conflicted with Docusign's requirements.
• Supported evaluation of a separate 147-seller Salesforce-connector pilot (84% month-over-month active-use growth; 78% positive sentiment), using findings to inform Snowflake product requirements.

Hisense **Qingdao, China**
B2B Product Management Intern *Jul 2025 - Sep 2025*
• Coordinated product and engineering workstreams for the CROSSCALL × Hisense rugged-device partnership, documenting decisions and driving stakeholder action items to completion.
• Delivered a computer-vision training dataset by labeling and quality-checking ~9,600 images (~10,000 boxes across 9 classes); wrote labeling guidelines and peer-reviewed batches for consistency.

FDA **Silver Spring, MD**
Machine Learning Research | Antimicrobial Resistance Modeling *Aug 2022 - Jul 2023 (Remote)*
• Contributed to machine-learning dataset preparation, experiment analysis, and technical findings for antimicrobial-resistance research.

PROJECTS

Hirenao — Founder & Product Builder **Jul 2026 - Present**
Next.js, TypeScript, PostgreSQL, pgvector, OpenAI | hirenao.ai
• Owned product design and full-stack development of Hirenao, a live AI job-search platform covering **200+ employer career boards**.
• Refined job-search filters through user testing, reducing time from resume/search to opening a first job link by **75% (120 to 30 seconds)**.
• Among the **first 100 users**, **68** reached a first result, **32** returned, and **approximately 11** received first-round interviews.

FRPG — Fitness RPG Tracker (iOS, SwiftUI) **Jul 2025 - Present**
Swift, SwiftUI | FRPG
• Designed an iPhone and iPad fitness app combining 239 exercises, guided workouts, and progress analytics with RPG progression tied to real training.
• Translated feedback from 5 test users into customizable workout plans and a simpler layout, reducing onboarding time by 40%.

SKILLS

Product & Research: Roadmapping, PRDs, OKRs/KPIs, User Interviews, Usability Testing, A/B Testing, Competitive Analysis
Technical: Python, SQL, TypeScript/JavaScript, Swift, PostgreSQL, Snowflake, LLM Applications, RAG, MCP
Tools & Frameworks: Figma, Jira, Confluence, Git, React, Next.js, SwiftUI
